**Step 2:** Thread skewers through twine, like this...

**Step 3:** Wrap the tissue paper around the tepee, and cut to fit. (Don't secure it yet!)

**Step 4:** Using the glue stick, glue the leaves to the tissue paper. (Don't use craft glue— it will leave hard dots.)

**Step 5:** Secure the tissue paper (leaf side in) to the bamboo skewers using tape or glue.

**Step 6:** Place tea lights inside the tepee, and dim the overhead lights. Three tea lights work best.
